

CALL FOR PROPOSALS

« SUPPORTING YOUTH IN THE WESTERN MEDITERRANEAN »

- Regulation -

"Supporting Youth in the Western Mediterranean" is a joint initiative of the Government of the Principality of Monaco¹ and the French Ministry of Europe and Foreign Affairs². It is executed by the European Institute for Cooperation and Development (IECD). This unprecedented action is part of the dynamics of the *Summit of the Two Shores* and the signing in Marseilles on 23rd June 2019 of the "Commitments for a new ambition in the Mediterranean" by the Foreign Ministers of the 5+5 (Algeria, Spain, France, Italy, Libya, Malta, Morocco, Mauritania, Portugal, Tunisia).

The five themes of education, vocational training, socio-economic integration, mobility and the social and solidarity-based economy emerged from the process bringing together civil society and the public and private partners of the *Summit of the Two Shores*. The text "Commitments for a new ambition in the Mediterranean" are one of the results of this Summit.

In the specific context of the Covid19 global pandemic, the call for projects will support initiatives that are part of a crisis/post-crisis support approach in the following areas. These will be consistent with the new contexts and consequences of the crisis in the countries involved. These may, for example, include initiatives to help people whose situation has been made precarious by the coronavirus pandemic, in economic, social or health terms (assistance to isolated populations, young people who have dropped out of school, victims of violence, migrants, etc.).
