

# THE IECD'S EDUCATION GARDEN

The education garden is an ecosystem that can be adapted depending on each context and needs. It shows a pathway and the 12 seeds sown along it which feed the personality building, the good living together and the meaning given to one's life. The harvest of the garden enable human training and people's sustainable development.

Influencing others  
and sharing joy

**GIVING  
MEANING TO  
YOUR LIFE**
